Technical information

Productnumber : 99-50001303-2

Product description

Shield cap for maximum shielding of your staff, customers, teachers, students, delivery drivers or yourself. To guarantee safety within workplaces such as cash registers, counters and public areas. Certainly an indispensable product in environments such as construction companies, healthcare institutions, home care, supermarkets, drugstores, snack bars, schools, hairdressers, clothing stores, offices and other retail stores. To prevent the contamination of the covid-19 virus (corona).

It is a lightweight protective hat with a plastic window glass on the front that prevents the wearer from breathing into another person's face and conversely naturally prevents breath, spitting, saliva, dust and/or liquids from entering the wearer's face .

The material of the protective cover is used in the sail-making industry for windows, which is important in connection with weight and therefore comfort for the wearer. The total weight of the cap is only 140 grams.

Standard available in the colors black, white and blue. Also other colors on request. Interested? Ask for the possibilities.

Specifications

Article arrangement: New

Version: cap with protective cap

Subgroup: Protective equipment

Weight (kg) 0.14

Type number: 99-50001

EAN Code (Gtin) 8719424191264

Type: face protection
