Product description

Used stackable steel bin, measuring 1150x830x470 mm. A stackable steel bin offers advantages in storage efficiency. This design allows multiple bins to be safely stacked on top of each other, resulting in organised storage and maximum utilisation of vertical space. The bin can be moved with both a pump truck and forklift. It is important to note that although the bin has lifting eyes, these are not certified for lifting. With a capacity of 195 litres per steel bin, this stacking bin provides space for safe storage of goods.

Please note! Missing one lifting eye. (See photo)
